DETAILED ACTION

Allowable Subject Matter

1. Claims 1-29 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggests soft bit computation in an equalizer of a receiver as the current application. In specific, the receiver comprise a reduced-state equalizer, wherein the received signal is input to a reduced-state trellis module and produce a first set of soft bits and hard decisions output; the received signal and hard decisions output also input to a gap-filler module; and the gap-filler module produces a second set of soft bits. The first set of soft bits are computed with finite non-zero delay, and the second soft bits are computed by zero-delay soft decision-making or decision-feedback equalization.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
